Health & Safety Policy

Projem is committed to constantly providing, maintaining and improving a safe working environment for all stakeholders, including clients, employees, subcontractors, suppliers, consultants and visitors.

Projem considers incident prevention to be vital to the ultimate success of our operations and is an integral part of our responsibilities. We are dedicated to the provision of systems, resources and training to meet the relevant OHS legislations and other requirements. Also establishing and measuring clear objectives and targets in an aim to maintain a goal of zero harm.

To ensure the highest standards of health and safety, all-inclusive health and safety practices have been implemented at Projem. These practices are supported by our comprehensive health and safety procedures which enable us to meet our health and safety commitments as a continuous goal.

Risks to health and safety will be eliminated or minimized, as far as is reasonably practicable in order to prevent any incidents from occurring. Where health and safety procedures are not clearly understood it is everyone's responsibility to bring these issues to the attention of the Management Team.

Through consultation, the sharing of ideas and mutual respect with management, workers and clients we will continue to build on our culture of safe work practices.

As the Directors at Projem, we ask that you follow in our footsteps in supporting this Health & Safety Policy, achieving this through consultation with and cooperation by all.

Nathan Peachey
