Quality Policy

Projem strives to exceed client expectations. We do this by attracting qualified employees with extensive experience, as well as seeking out high quality subcontractors, suppliers and consultants.

As a team, we are thriving to achieve our ongoing objectives and targets that are vital to the growth of our business. To ensure that these objectives are met, Projem has adopted an Integrated Management System that complies with all applicable requirements and standards. The Integrated Management System will provide clients with the assurance that the projects completed by Projem will be of a consistently high standard.

In addition, the Integrated Management System will clearly define responsibilities and key performance indicators at all levels, which allows employees to understand the quality objectives and assist them to achieve these goals.

Projem is fully committed to the implementation and maintenance of this Integrated Management System and in turn expects all related stakeholders to contribute and support it.

Internal and external audits will be undertaken to ensure full compliance with the relevant standards and to identify areas requiring continuous improvement.

As Directors at Projem, we ask that you follow in our footsteps in supporting this Quality Policy, achieving this through consultation with and cooperation by all.
